### ○ Survey Results

Survey Results Based on individual interviews conducted in response to the open-ended comments from employees, one (1) case was identified as a human rights violation. The company has already completed a swift and rigorous response to this matter. Furthermore, the HR department is currently conducting interviews and fact-finding investigations into individual issues concerning workload, harassment, micromanagement, discrimination, and awareness of the internal whistleblowing system. To ensure greater effectiveness and improve awareness in addressing these challenges, we have explicitly incorporated the identified issues into our Risk Management Matrix as company-wide management priorities. We are committed to continuous monitoring and taking appropriate action. Additionally, as top-priority initiatives, we will focus on enhancing the effectiveness of training programs, providing education for management-level employees, and ensuring a multi-faceted approach to promote thorough awareness of the internal whistleblowing system.
